

1700W PADDLE SWITCH 125MM SMALL ANGLE GRINDER WITH BRUSHLESS MOTOR DEWALT DWE4345

This grinder shows up and works hard; no brushes to replace and no downtime having to replace brushes. When you're working, PERFORM & PROTECT features can be your first line of defense. An integrated brake stops the wheel quickly when the motor shuts off.

Kickback Brake and E-CLUTCH® are designed to help give the user enhanced control in bind-ups and stalls. Get enhanced user protection with PERFORM & PROTECT™ features that don't affect performance.
