

## 09 AUTOMATIC CENTRE PUNCHES <ACP-1, ACP-H2, MP-88>

ESP Granetes automatico  
FR Pointeau a dispositif de frappe incorpore  
DE Automatischer Körner

Groz manufactures a complete range of fully automatic single hand operated spring loaded punches, wherein the built in mechanism delivers a punch just with the pressing of the head.

The depth of the impression is variable and can be adjusted from light marking to heavy blows by turning the knurled head. Screwing the cap downwards produces heavy indentation; progressively lighter marking can be obtained by screwing the cap upwards. Once the knurled cap is set to the desired position, the punch will strike the same depth every time.

These have a round shank with clean and well cut knurling for positive non-slip grip. Tips are made from hardened tool steel and can be easily removed for re-sharpening or replacement.

These are available in three types:

1. Automatic Centre Punch - Light Duty <ACP-1>
2. Automatic Centre Punch - Heavy Duty <ACP-H2>
3. Marking Punch <MP-88>
