

45 BENCH PLANES <SP-3, SP-4, JP-5, FP-6, JP-7>

ESP Cepillo de carpintero
FR Rabot
DE Bankhobel

Highest Quality Bench planes, engineered to exacting tolerances while maintaining traditional standards of workmanship, design & performance

Groz planes have fine & robust Grey Cast Iron bases which are accurately machined & ground to high precision. Sole is flat to 0.003" (0.075mm). Spring steel cutter blade is hardened to 55 ± 5 HRC and hones quickly to a razor sharp, long lasting edge. Accurately machined blade seating eliminates blade "chatter". Fully adjustable frog provides the required setting for the specific job.

Attractive hardwood handle and knob with brass adjusting nut and screw heads makes this a favourite with the discerning woodworker

Cat. Nr.	Ordering Nr.	Type	Suitable For	Length		Cutter Width	
				Inch	mm	Inch	mm
SP/3	39700	Smoothing Plane	Final finishing work	9.1/2	240	1.3/4	45
