

OUTSIDE MICROMETERS MM

Product Brief

Balanced Frame Design:

Steel frame prevents flexing ensuring greater accuracy in measurement. Can be operated efficiently with one hand

Non – wearing carbide tipped anvil & measuring faces ensure accurate measurements over a long period of time

Hardened spindle with precisely cut threads for smooth movement and high accuracy

Satin chrome thimble and barrel with convenient to read deep etched graduations in black

Ratchet stop for exact repetitive measurements

Quick & easy zero adjustment with spanner wrench

Supplied with master on all sizes except 0-25 mm / 0-1" Available in inch & metric models

MM/0-150/ST6

FEATURES

RESOLUTION
0.01 mm / 0.0001"
