

CENTRE PUNCHES - HEAVY DUTY No. 252

esp Granetes de trazar fr Pointeau de Körner

Product Brief

Centre Punches are manufactured from selected carbon steel. These are accurately hardened and tempered so that the point will withstand continuous use and the striking end will not splinter. These are ideal for clearly marking metal in work layout & making indentations in a work piece before drilling to ensure correct location of drill points.

The working tips are centered and ground to the correct angle (90° included angle) for increased efficiency in marking. The striking end is chamfered to prevent breakage.

WARNING

This product contains, chemicals, including lead, know to the state of California to cause cancer, birth defects or other reproductive harm.

Wash Hands After Handling.
