GAZELLE®

Temperature and Humidity Logger

G9400 Series - G9413

The GAZELLE G9413 datalogger uses high-precision temperature and humidity sensors to monitor and record data for longer periods. The G9413 is IP67-rated water and dust proof, and can store 60,000 sets of data and transmit them through USB to PC. It is a great solution for monitoring temperature and humidity sensitive goods such as medicine or food during transportation and storage, as well as for greenhouse and energy audit.

- IP67 water and dust resistance
- High accuracy
- Great storage capacity
- USB data transmition
- Image upper computer management and statistics
- High-precision measurement
- Long-time temperature and humidity and atmospheric pressure monitoring and recording
